

# Safety Alert

**Situation:** Technician climbs in back of truck and door closes. Technician goes to exit the vehicle and the door is locked and cannot be opened. Assistance is requested and the door is opened from the outside.

**Additional Factors:** In this particular situation it was an extremely hot day and the Technician had their cell phone available.

**Cause:** see pictures below,

## Common Child Security Locks

**Reminder:** Not all vehicles that have the Child Security Locks have window stickers.

**Solution:** Check all vehicles and ensure that the Child Security Locks are in the disengaged/unlocked position.
